

## Snapshot Science Club

Due to the outstanding response the first time around, Snapshot Science Club will be offered again for K-2 students at NCES-St. Anne. The activities from the first session will be repeated the second time. Those of you in the current session should wait for the next session next school year. If you did not register in time or the times did not work out, please sign up for the second offering. The sessions will meet Wednesdays, January 4th through February 1st from 3 to 4 pm in room 7.

The registration deadline will be Monday, January 2nd. Please note, the session is limited to 10 students. There are 6 slots available.

Each week will feature an important science 'snapshot', a specific topic or concept which students will investigate. Inquiry-based investigations will develop students' natural curiosity and ability to think scientifically, as well as practice science skills such as measurement and analyses.

K-2 topics to explore: Measurement, Gravity, Space, Soil or Dirt?, Crazy Critters

Snapshot Science professional educators deliver engaging science activities based on national science standards. For more information about Snapshot Science, LLC and instructors visit [www.snapshotscience.org](http://www.snapshotscience.org) or email [sschmidt@snapshotscience.org](mailto:sschmidt@snapshotscience.org)

Registration: Register early as space is limited to 10. Deadline Monday, January 2nd
