Student's Name: _____ 2018-19 Grade Level: 6 7 8 9 10 11 12

Parent/Guardian Information:

Parent/Guardian Name: _____

Address: _____

Cell Phone: _____ Island Phone: _____

Email: _____

Emergency Contact Name: _____ Relationship to student: _____

Island/Other Phone: _____ Cell _____

Please let us know if your child has any SERIOUS health conditions, physical limitations and/or allergies.

This Underwater Robotics course offered by Snapshot Science, LLC involves the use of some tools that can be dangerous. Depending on the projects, students might use a utility knife, glue gun, soldering iron, or PVC pipe cutter. The instructors will demonstrate and teach your child safe use of any tool prior to use. Also, your daughter/son will be instructed to always wear safety glasses while soldering, cutting metal pieces, or doing any other activity that is deemed dangerous by the teacher. Although every workshop will include careful safety instruction and close supervision, you must recognize the fact that accidents can happen. Therefore we must have permission for your child to participate in this program, and to use the tools that we have provided to use.

I have read the above statement and I give my permission for _____ to participate in the Snapshot Science, LLC Underwater Robotics program. I understand that my son/ daughter will be using a variety of tools that can be dangerous if used improperly. By signing this form, I release Snapshot Science, LLC, and all of the people acting on their behalf, from any liability in the event of any injury incurred while participating in the Underwater Robotics program.
